

Wish 11

We want our children to appreciate the uniqueness of individuals and celebrate the differences.

A progressive K-8 school on the University of Pittsburgh campus, Falk Lab School has provided a child-centered, quality education in a diverse, nurturing, and inclusive community since 1931.

Falk's **"Wishes for Our Children"** is a set of 21 hopes we have for all Falk children—wishes that address the academic, social, and emotional needs of our children. A Falk education emphasizes active learning as well as collaboration, play, and developing friendships.

To read more of our wishes for our children, and to find out more about Falk Laboratory School, visit **falkschool.pitt.edu**.
